

Customized pvc profile strip

Description:

1. Advantage: We are a leading company in the extrusion and co-extrusion of plastic profiles, which can offer our

customers vast experience and versatility in designing and manufacturing dedicated solutions and custom projects in all

kinds of industrial and decorative projects.

2. Comprehensive production process allows us to adapt raw materials to the requirements of each project with our own

formulations of plastics and colorants, mold design and construction, special finishes and flexible production lines that

greatly reduce new product launch lead times.

3. Technological background adds value to our customer relations, thanks to our capacity to innovate and solve technical

challenges by adapting standard processes to specific needs.
